

ETHIOPIA

PRIMARY GROWING REGION  FARMER SUPPORT CENTER 

ARABICA COFFEE AREAS 

ARABICA ALTITUDE
3,600 - 7,200 ft
(1,097 m - 2,195 m)

PRIMARY VARIETALS
Heirloom

PRIMARY PROCESSING METHODS
Washed, Sun-dried

HARVEST
October - January

We often think of history and dancing goats when tasting coffees from Ethiopia, but our Farmer Support Center partners are looking to the future. They are working with farmers and the Ministry of Agriculture to mitigate the impacts of climate change and increase the size of harvests of these special coffees.
